Why a vote could or could not carry at each meeting

tsc-2023-11-08

6 voting members were present. The roster lists 18 voting members, so a simple majority is 10. A vote could not carry in the room.

For all votes, the winning candidate option is the one that wins a simple majority of all TSC voting members in every head-to-head election against each of the other candidates.

tsc-2023-12-06

10 voting members were present. The roster lists 18 voting members, so a simple majority is 10. A vote could carry in the room.

For all votes, the winning candidate option is the one that wins a simple majority of all TSC voting members in every head-to-head election against each of the other candidates.

tsc-2024-01-10

10 voting members were present. The roster lists 18 voting members, so a simple majority is 10. A vote could carry in the room.

For all votes, the winning candidate option is the one that wins a simple majority of all TSC voting members in every head-to-head election against each of the other candidates.

tsc-2024-01-17

12 voting members were present. The roster lists 18 voting members, so a simple majority is 10. A vote could carry in the room.

For all votes, the winning candidate option is the one that wins a simple majority of all TSC voting members in every head-to-head election against each of the other candidates.

tsc-2024-02-07
