Largest recorded gaps between activities

Top ten stored mean waiting intervals. These values do not measure task duration.

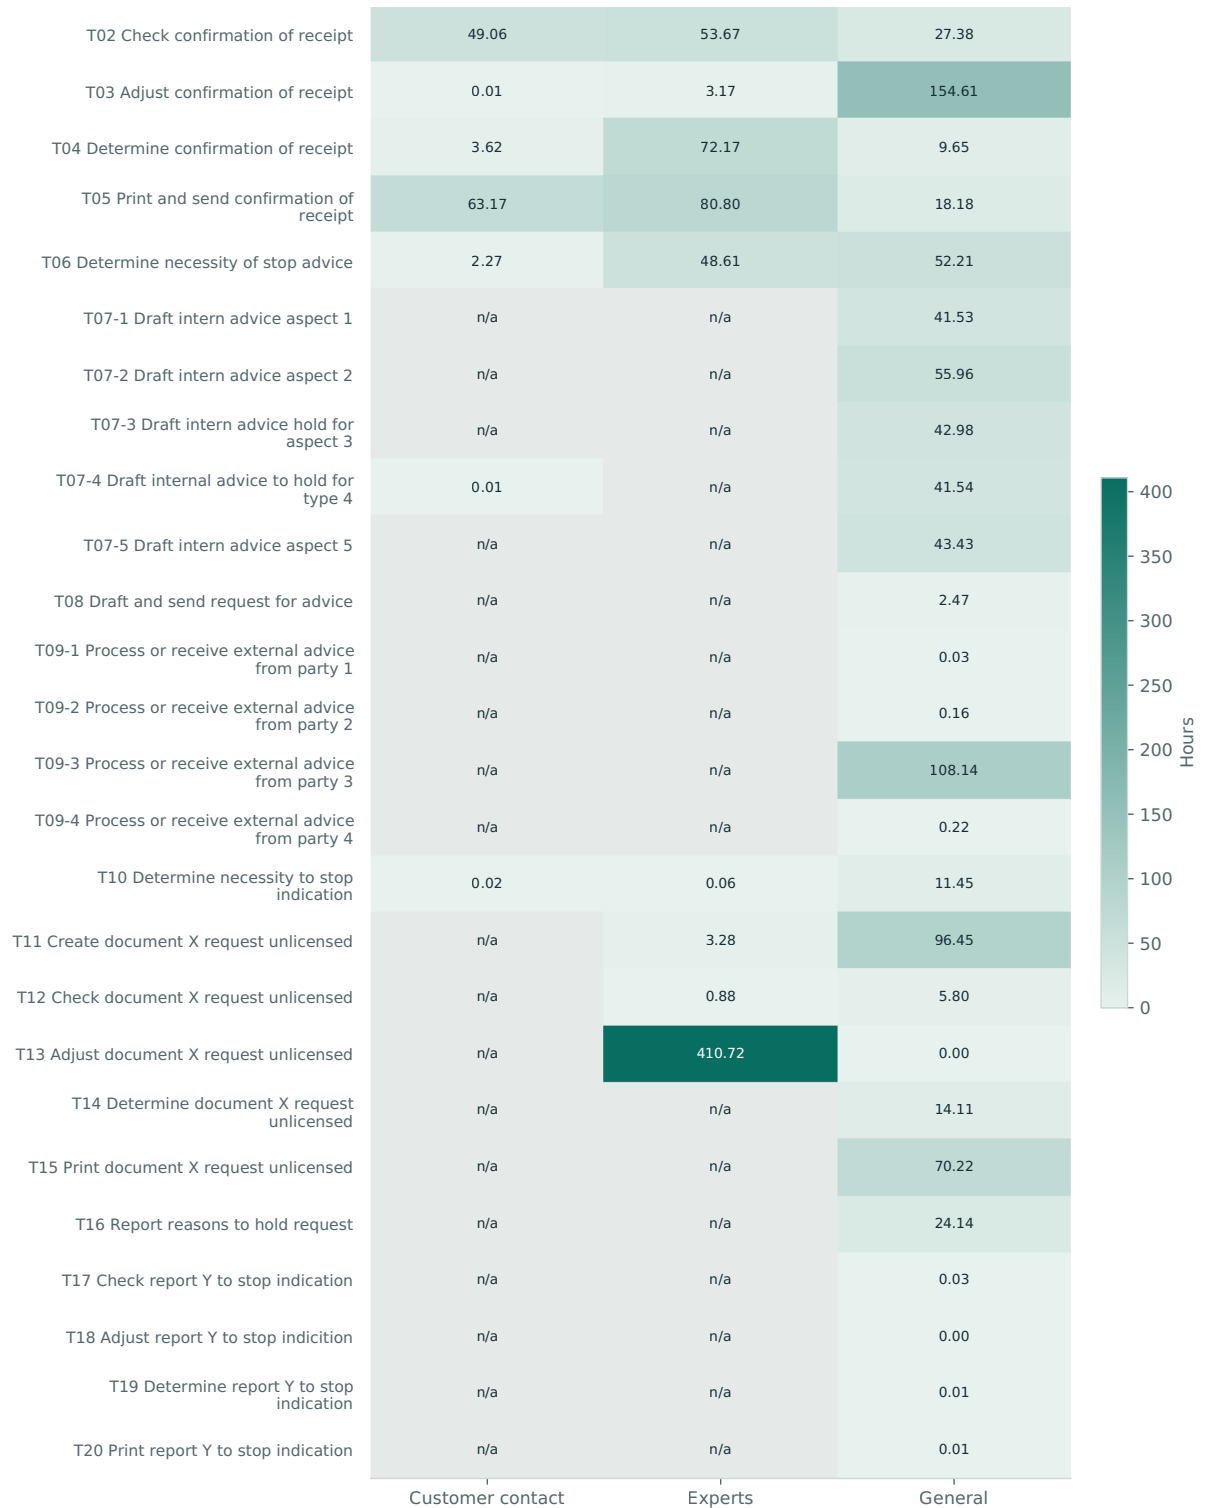

Recorded counts, rule results, and intervals retain their original meaning. The snapshot date is fixed.

Elapsed time by department and activity

Mean hours since the previous event. Blank cells mean no recorded value, not zero.

Recorded counts, rule results, and intervals retain their original meaning. The snapshot date is fixed.

RECORDED SEQUENCE

Path 116

1 case / 12 recorded steps

- 1 Confirmation of receipt
- 2 T06 Determine necessity of stop advice
- 3 T10 Determine necessity to stop indication
- 4 T16 Report reasons to hold request
- 5 T17 Check report Y to stop indication
- 6 T19 Determine report Y to stop indication
- 7 T20 Print report Y to stop indication
- 8 T02 Check confirmation of receipt
- 9 T03 Adjust confirmation of receipt
- 10 T02 Check confirmation of receipt
- 11 T04 Determine confirmation of receipt
- 12 T05 Print and send confirmation of receipt

Inspect the stored directly-follows counts. Repeated activity pairs are retained as recorded. Filters: From: T04 Determine confirmation of receipt; To: T05 Print and send confirmation of receipt; Minimum recorded value: 0.

Recorded directly following activities

From	To	Recorded count
T04 Determine confirmation of receipt	T05 Print and send confirmation of receipt	1177

All matching connections are shown, ordered by their recorded value. A connection can return to the same activity or resource.

Inspect the stored handover weights. These values are weights, not raw event counts. Filters: From: Resource01; To: Resource01;
Minimum recorded value: 0.

Recorded resource handovers

From	To	Recorded weight
Resource01	Resource01	0.136497

All matching connections are shown, ordered by their recorded value. A connection can return to the same activity or resource.
